Type
A. Multidimensionally supported fidelity
B. Individuating but miscalibrated
C. Structurally supported but weakly individuating
D. Structurally discrepant despite acceptable score-level fidelity
E. Individuating and calibrated with limited structural support
F. Unclassified residual
Structural model inadmissible (Heywood/nonidentified)
Structural analysis not conducted/not applicable
Structural status (marker)
Scalar
Metric only
Configural (CFA)
Congruence (gated ESEM)
Discrepant (gated ESEM)
Model inadmissible
Not tested
