Type
A. Score fidelity with metric-level support
B. Individuation without calibration
C. Structural support without adequate individuation
D. Score–structure discrepancy
E. Score fidelity with limited structural support
F. Unclassified residual
Structural model inadmissible (Heywood/nonidentified)
Structural analysis not conducted/not applicable
Structural status (marker)
Scalar
Metric only
Configural (CFA)
Congruence (gated ESEM)
Discrepant (gated ESEM)
Model inadmissible
Not tested
